About Tata EarlyEdge

Tata EarlyEdge is a curriculum that has been designed as a 3-year comprehensive pre-primary curriculum that builds on a child's natural curiosity in fun and engaging ways. It is mapped to the learning outcomes as described by the NCERT and aligned with the **National Education Policy- NEP,2020 and National Curriculum Framework for the Foundational Stage.**

Tata EarlyEdge enables a comfortable entry into Grade 1 instilling a sense of confidence by offering ample practice in Foundational Literacy and Numeracy. Furthermore, our integrated curriculum aims to go beyond and promote a child's social, emotional, cognitive and physical growth through different activities such as play, hands-on experiences and exploration.

The 3 Cs of Tata EarlyEdge

Communicate- Children should be able to express themselves with adults and peers confidently and not just follow simple commands and reply when they are spoken to. EarlyEdge is not about parrot and repeat but instils in children an ability to share their thoughts and ideas to express what is unique about them.

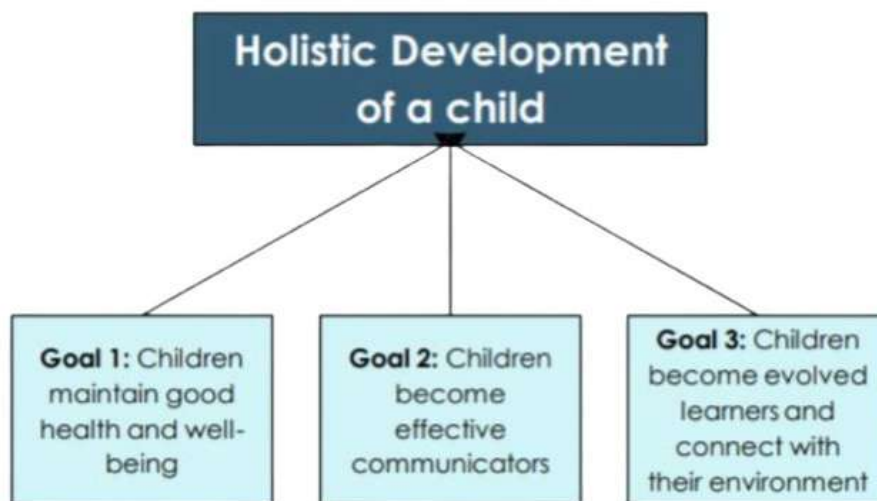

Connect- Children should be immersed in learning and be fully engaged with every activity they are doing. EarlyEdge is designed to connect students to their learning through storytelling and play.

Care- EarlyEdge is designed to teach children how to care for their bodies and the environment in small ways, so that they grow into empathetic, independent individuals.

Alignment with NEP 2020

EarlyEdge with NIPUN (National Initiative for Proficiency in Reading with Understanding and Numeracy)

The 3 Cs of Tata EarlyEdge are directly aligned with the below-mentioned **NEP 2020 NIPUN (National Initiative for Proficiency in Reading with Understanding and Numeracy)** guidelines–

EarlyEdge with NCF for FS (National Curriculum Framework for Foundation Stage)

The EarlyEdge curriculum and learning outcomes are aligned with NCF for FS (**National Curriculum Framework for Foundation Stage**) and with international best practices in early childhood education.

Some NCF for FS references and how EarlyEdge implements these are listed below–

- 1. Parental Involvement (NCF 1.1.2):** Tata EarlyEdge promotes parental engagement through activities designed for collaboration and a dedicated parent app, ensuring a unified learning experience between the classroom and home.
- 2. Play-based Learning (NCF 1.1.3):** The curriculum incorporates age-appropriate, physical, educational, and social activities through play-based methods. These are evident in the interactive digital content, in-class play-based resources, activity books, and character-based social development in EVS subject books.

3. Teacher Empowerment (NCF 1.2.4): Teachers undergo training from subject matter experts, emphasizing the importance of human resource development and transformation in practice.

4. Conceptual Understanding (NCF 1.3.1): The curriculum places a strong emphasis on conceptual understanding over rote learning or exam-oriented education, with student books containing concept-building exercises and Higher Order Thinking Skills activities.

5. Cultural Relevance (NCF 1.3.1 & 1.5.2): EarlyEdge integrates Indian context throughout its materials– including character appearance, names, and settings– aligning with the emphasis on contextual relevance in the curriculum.

6. Digital Integration (NCF 5.2.1 & 5.4.7): EarlyEdge seamlessly incorporates digital technology into the curriculum. The use of animations, interactive games, and real-life videos enhances the learning experience, fostering active engagement and aligning with the NCF for FS' encouragement of utilizing current technology for effective education in the foundation stage.

INDIAN CURRICULUM

CBSE ALLIGNED

- 1. Recognised by the Indian Government :** The Indian government recognises CBSE as a national level body of education. This means that the curriculum for different grades is organised according to the Indian government's guidelines.
- 2. Uniformity Throughout the Curriculum :** Every CBSE school curriculum has been recognised by the National Council of Education Research and Training (NCERT).
- 3. Focus on Languages :** Apart from focussing on Hindi and English equally, several CBSE Schools now have the option of learning another foreign language like German, French or Spanish. This gives an advantage to students who wish to apply for further studies in foreign countries. Students can even opt for regional languages.
- 4. Global Recognition :** Gone are the days when CBSE seemed like an Indian thing only. The curriculum is recognised by almost all of the international universities across the globe. No CBSE student would face a difficulty due to the curriculum while applying for a higher course abroad. In fact, there are several schools in various foreign countries offering CBSE curriculum along with others.
- 5. Competitive Exams Ready :** The teaching methods have evolved drastically as competitive exams have become more important in the curriculum. Every parent wants their child to be prepared for competitive exams such as JEE, AIEE, etc. Choosing a CBSE school that has a broad curriculum provides the extra benefit of learning more ahead of the numerous competitive exams. CBSE syllabus is designed to prepare students for entrance exams such as IIT-JEE, AIEE and AIIMS. This gives CBSE an advantage over other boards.
- 6. CBSE Board gives extra advantages to students with health problems or students with special need for board exams.**

- Available for both Secondary (Grade 10) and Senior Secondary (Grade 12)
- Opportunity to improve marks quickly
